

Permanent Way Institution NSW Section

2017 Alan Barham Maintenance Team Award 2017 Maintenance Team Award - Minor

The Alan Barham Team Award is open to submissions from ARTC, John Holland Rail and Sydney Trains

The Maintenance Team Award - Minor is open to all other rail infrastructure companies

What is a Maintenance Team?

A typical Routine Maintenance team undertakes surveillance inspections, servicing, minor corrective maintenance, and emergency response, for track, bridges, right of way assets, and possibly signal assets. The team needs to be operating in NSW.

How will it be judged?

A panel of PWI Committee members will perform the judging.

Applications will be assessed from nomination documentation, site visits, reference checks and any other relevant sources of information.

What are the judging criteria?

The period under consideration is 1 July 2016 to 30 June 2017. Applicants will be assessed against People, Safety, Organisation and Leadership, and Achievement criteria. The judges will evaluate outcomes and conditions which are within the Maintenance Team's control as far as possible. It is recognised that track configuration, investment programs, operating parameters, and to a large extent general infrastructure condition are outside the Maintenance Team's control.

2017 Alan Barham Winners – Sydney Trains Lawson Civil Team
